The Englewood Chamber recruitment event is Sep. 26th. John Elway hosted the event this last Tuesday and it was hoped that more than just Dave Miley would attend to get some knowledge on how we might want to host our event.

Sertoman of the day: Rick Jacobus (aka Night Owl), born 23 July, 1936 in Grand Rapids, Michigan (same hospital as President Ford but 2 years later) but grew up in Ohio on an Army base until he was a junior in high school at which point the family moved to CO when in 1953 and graduated from Sheridan High in 1954. He worked for Public Service about 3 years when a co-worker advised him to go to college. A grad of UNC, Greeley with a degree in Distributive Education, Rick gave up teaching school (elementary phs ed) after one year but went on to a successful 35 year career in the insurance field.

Rick lives with his wife Bonnie, they were married in June of 1962. They have a son, Rod, who lives in LA, and a daughter Jill, whose husband and kids live in this area, which gives Rick a chance to spoil the 2 grandkids twice a week.

Rick missed joining the Navy by one day, he was going to sign up but a letter from the Army, forwarded from Harder which stated Rick had received his 2S-deferment into the Army. That was close. He was in the NAVY Reserve and Air Force ROTC.

A member of Arapahoe since 24 July, 1974, Rick has done it all including President (79-80), Secretary, Governor, District Governor in 1982-83 and more. He mentioned how he was instrument in getting a club to shut down. He was recruited into the club by who else, Doug Harder, who was also Rick's Best Man. He did not win a Gold Coat, thanks to Harder. Program: Doug Harder introduced our program, Mark Reagan. Mark is a hypnotist and

came today to explain it to us and give a demonstration.

Everyone has a different idea of what a hypnotist does.

On stage do I have “plants” that are faking it? Or do I actually have powers over people to make them do my bidding like some fantasy wizard?

Not at all.

Hypnosis is all about you.

Your mind is super powerful.

You are capable of incredible things... but sometimes our conscious mind gets in the way. With hypnosis, I bring you into a trance where we can bypass the conscious and go right to the deep, unconscious part of you.

I'm not a wizard. I'm a guide taking you to a new destination.

Maybe that destination is giving up smoking. Losing weight. Relieving stress. Or putting that fear of flying behind you.

Or maybe that destination is entertainment. I started out by hypnotizing some of the toughest subjects around: random strangers on the street.

I love putting on impromptu shows at the First Friday Santa Fe Art Walk here in Denver and other events. It's incredible hypnotizing people I've never met. I can bring that person to a place where they feel fantastic, are laughing uncontrollably, or are even thinking they're a billionaire and they're having a great time handing out money to strangers.

Mark had a hand-out called “[Anchoring](#)”. Anchoring is where you learn a stimulus so that when you are in a situation, say a stressful moment, you can use the technique to relax.
